The Mercedes-Benz C-Class is a line of compact executive cars produced by Daimler AG. Introduced in 1993 as a replacement for the 190 (W201) range, the C-Class was the smallest model in the marque's line-up until the W168 A-Class arrived in 1997. The C-Class is built at Mercedes-Benz factories in Sindelfingen and Bremen, Germany as well as numerous satellite factories in other countries.

Both are excellent and the latter needs virtually no manual intervention. The Mercedes Actros' ride is another high point. Four air-suspension points cushion the cab and steel suspension units are weight-optimised to give the best performance in any sector. The engine retarder is good enough to be used in most situations and this keeps the service units fresh for those emergency situations. If ...

Despite the small and lightweight design, the Hyster® PC1.5 can lift up to 1.5 tonnes and helps overcome manual handling concerns when pushing or pulling heavy loads. The tough and robust frame is extremely compact for use in tight spaces, and the truck is designed to give good performance on gradients, helping to support operator productivity. The motorised pallet truck design can work at a ...
